STRENGTHS

- Quick Learner
- Strong Problem-Solving Skills
- Team Collaboration
- Effective Communication

LANGUAGES

English

Read, Write, Speak

Telugu

Read, Write, Speak

EDUCATION

B.Tech-Artificial Intelligence and Data Science

Saveetha School of Engineering

09/2023 – 05/2027 | Chennai ,Tamil Nadu

SKILLS

Programming : Python, C, C++, Java

Database : MySQL

Technologies : Machine Learning, Data Analysis

PROJECTS

Smart Waste Management System using AI and Alert System

- Built an AI-driven system to predict waste bin fill levels using supervised learning.
- Developed backend using Flask and integrated MySQL for real-time data storage.

Advanced Banking Fraud Detection using AI

- Developed a fraud detection system using ML (Logistic Regression, Random Forest) for banking transactions.
- Preprocessed data and evaluated performance using precision, recall, and F1-score.

CERTIFICATES

Oracle Database SQL Certified Specialist

Completed certifications in SQL, IoT, and Deep Learning.

NPTEL Certification in Internet of Things

Gained knowledge in IoT architecture, protocols, and applications

NPTEL Certification in Deep Learning

Completed certification in Deep Learning with focus on neural networks and machine learning concepts.

INTERNSHIPS

Intern – HDLC Technologies

- Hands-on in software development & ML.
- Worked on real-time projects.

Intern-Averexis Solutions Intern

- Built an ML model in Python using Pandas & NumPy.
- Evaluated with accuracy metrics.
